Edward Payton

Web Developer

94 Seymour Road, Trowbridge, Wiltshire, BA14 8LX
edwardjpayton@gmail.com
07989 664 786

My name's Edward, and I enjoy problem solving as much as creating eye candy. With an eye for detail I build great looking websites that work well on any device and are super quick. I am looking for a senior / lead developer position where I can offer my skills and knowledge of building great things for the web.

Experience

Web Developer

Arena Design

Jan 2015
Present

Currently working at Arena Design, I develop highly functional and user friendly websites on a wide variety of platforms. I am responsible for demonstrating new ideas and new coding practices to deliver excellent websites, such as using Magento for E-commerce builds, and introducing Git for managing workflow.

Front End Developer

MediaClash

Jun 2014
Jan 2015

Working in an Agile project management environment, my role was to head up Front End development. I am able to pick up and use new tools easily, and the quick pace of projects called for me to be able to deliver excellent work in tight timescales.

Web Developer

Amaroo Media

Oct 2012
Jun 2014

Taking a lead in the Front End development, I ensured website builds worked across all devices. With a strong knowledge of jQuery, and working with RESTful APIs, I developed some interesting and varied websites that have stood the test of time.

Designer

Cre8tive Working Environments

Apr 2007
Oct 2011

I managed the websites, designed and built the email campaigns and managed social media for the companies brands. In this role I grew an interest in web development and learned how to code, and the importance of following coding standards.

Skills

HTML5/CSS3, Sass / Less, Responsive Design, Cross-Browser Compatibility

JavaScript, jQuery, Ajax, Knockout, Angular, Grunt

PHP, MySQL, Apache, Laravel, WordPress, Magento

Projects

Rolledmattress.co.uk -E-commerce website built with Magento. My focus was on the front-end development, creating a flawless responsive finish.

Bathholidayrentals.com - Built with Laravel MVC PHP framework, with data driven from the clients CMS API.

Drumwright.co.uk - E-commerce site, information pages built using Knockout.js, and a one-page JavaScript checkout.

Marshfield-icecream.co.uk - Built with the latest responsive techniques using Sass, Grunt, and social APIs.

Stjohnsbath.org.uk - Javascript application forms built into a smooth, mobile first website with a unique layout.

Education

Agile Project Management

Distance learning through Cupe Training

Trowbridge Sixth Form Centre, Trowbridge

3 A Levels gained, grades A - C

The Clarendon School, Trowbridge

9 GCSEs gained, grades A - C
